

Tamborine Mountain State High School Summit STEM Program Application. Developing the problem solvers and creatives of tomorrow

At TMSHS, we believe in nurturing the thinkers, innovators, and leaders of the future. Our Summit STEM Pathway Program is designed to give capable and motivated students the chance to explore, create, and succeed as they take on exciting challenges and real-world projects.

Who are we looking for?

We are seeking students who are:

- Motivated, reliable, and inquisitive
- Creative problem solvers who enjoy exploring innovative ideas
- Academically competent with a passion for making a difference.

While strong academic results are important, what truly matters is enthusiasm, perseverance, and love of learning and problem solving.

What does the program involve?

- Years 7:
 - Students will be placed in a dedicated science class (during class time).
 - One lesson per week will be devoted to extracurricular activities, including a long-term discovery project that blends science, mathematics, and technology.
 - Students will remain together for some other classes (e.g. Mathematics) to foster collaboration, access targeted support, and pursue excellence.

To remain in the program, students must maintain strong academic standards and may be required to re-apply in future years depending on demand.

How to apply

Simply complete the attached application form, briefly outlining:

- Two of your most recent report cards
- Your ability to persevere when faced with challenges.
- The type of learning discovery project(s) you would most like to pursue.
- Your reasons for wanting to enrol in this program.

Take the first step towards shaping your future as an innovator, problem solver, and leader.
