G & H Drive Access When not at School

G Drive

G Drive **_IS NOT_** accessible from when not at school. If you require work from G Drive, email the school or your teacher directly, then from there the required file/s can be sourced for you.

H Drive

Similar to G Drive, H Drive **_IS NOT_** accessible from when not at school. If you require anything off of your H Drive, then email the school and the IT Department will get the required files off of the H Drive. They just need the username of the student.
